Contract No. A-161 Amendment No. 6

The Ramo-#coldridge Corporation Los Angeles &5, California

Gentlemen:

- l. This document constitutes Amendment No. 5 to Contract No. Aniol. dated 31 March 1955, between The Remo-Mouldridge Corporation, Lee Angeles, California, and the United States Government and further amends said contract, as amended, as hereinafter set Jorth.
- 2. Pursuant to the clause of this contract entitled "Changes," the Severament here:y (1) makes curtain changes in the specifications of the items of the contract mark called for by this contract (11) requires performance of certain additional work, and (111) extends the period of performance for the work called for hereunder, as follows:
- (a) In SECTION A CONTRACT WORK of the Schedule of Contract No. A-101, as emended, and the following Suspection "P" under the Heading I System 1:
 - D. The Contractor shall perform additional work over and above that contemplated under the contract, as heretofore amended, in connection with the design, engineering, development and production of System No. 1 to conform with revised requirements of the Government. The additional items of work are set forth in Enchonne CHCC Doc. No. 1131.8 to Contractor's proposal of 7 Pebruary 1956, which is incorporated herein by reference.
- (b) In SECTION A CONTRACT NORK of the Schedule of Contract No. A-101, as anended, and the following Subsection $^{\circ}C^{\circ}$ under the Needing II System 2:
 - C. The Comtractor shall perform additional work and services in connection with studies, investigations, development and preparations for production of items of equipment comprising System No. 2. Based on the results of studies and investigations of both less-frequency and high-frequency sperations already completed by the Contractor under this Contract, further efforts shall be directed toward development of a system utilizing the high-frequency band and including certain capabilities desired by the Government.
